Forecast for Tuesday 02 Mar 2021

Weather: Western parts will be dry with long clear or sunny spells. However eastern hills will be largely cloudy through the morning but should see some sunny spells developing towards midday. Mist or fog patches returning across eastern parts towards midnight.

Chance of cloud free mountain/hill tops above 600m: Close to zero across eastern hills through the morning. Improving to 40% by midday and 90% by mid-afternoon. 90% across western parts throughout.

Visibility: Periods of cloud above 300m in the east through the morning. Otherwise only small amounts of cloud below the summits. Away from cloud visibility good or very good.

Meteorologist's View

Frozen in valleys at first, and also at height. Despite the chilly temperatures, light winds and extensive sunshine will ensure a largely fine day outside of cloud.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Wednesday 03 Mar 2021

Weather: Dry overnight with some clear spells, although mist and fog patches are likely to form in valleys, with the greatest risk in the east. Thicker cloud spreading north, with outbreaks of showery rain expected towards dawn. Then a mostly cloudy day with further outbreaks of showery rain

Maximum wind: Mainly easterly at less than 10mph.

Chance of cloud free mountain/hill tops above 600m: Close to zero for most through much of the day

Visibility: Persistent cloud above about 600m lowering 300m at times. Away from cloud visibility good falling to several kilometres in showery rain.

Temperature: **Valleys:** Plus 3 Celsius rising to Plus 10 Celsius.
At 600m: Plus 4 or 5 Celsius
Freezing level: Above summits
